

High Performance Detail 200 Series

Detail #220 - Exterior
Insulated Basement Wall

R-value of Insulation:
R-5 at 1-¹/₁₆"
R-10 at 2-¹/₈"
R-15 at 3-¹/₄"

- Neopor® HPE-150, graphite enhanced continuous insulation.

Benefits of Neopor® GPS Insulation for Exterior Basement Wall

- Meets 2009, 2012 & 2015 IECC, IRC and IBC Building Codes
- Cost effective and regionally available
- Available in multiple thicknesses and R-values to fit your climate zone needs
- Can contribute to improved HERS® Index scores
- GREENGUARD® Gold Certification for VOC emissions
- Moisture resistant insulation
